Subject: Fast Track Program for BS in Mathematical Sciences - Actuarial Concentration / MBA

The College of Science and the College of Business Administration seek approval to create a fast-track program for undergraduate students pursuing a BS in Mathematical Sciences – Actuarial Concentration who are also interested in pursuing a Master of Business Administration Degree. BS students would be required to have a 3.3 cumulative GPA and 90 credit hours in order to apply for admission to the MBA program. BS/MBA fast-track students would be allowed to take 12 credit hours of MBA core coursework which would count dually toward the BS elective requirements and the MBA core requirements. The table below illustrates the MBA core courses which could count dually.

Fast-Track Program Request

1. Indicate the undergraduate and graduate academic programs in the college that agree to participate in the dual credit program.
2. Undergraduate students in the program must have successfully completed at least 90 hours of undergraduate coursework toward their major with a minimum of 24 of those hours at UTEP. Also, students must have and maintain the same GPA requirement in the major as for the university honor’s certificate, which is an undergraduate GPA equal or greater than 3.30/4.00. Identify additional departmental admission requirements for the program.
3. Each participating undergraduate academic program must determine which 5000 level courses will count toward the undergraduate degree. Likewise, each participating graduate academic program must determine which 5000 level courses will be included in the fast track program.
